

PREVENTIVE MAINTENANCE MODULE

PREVENTIVE MAINTENANCE MODUL

We will take care of your system as outlined in your system maintenance plan. In addition, our experienced system engineers will do once a year an in-depth system calibration and system status analysis. They will update soft- and firmware (if available) and will give recommendations for replacing parts if these are close to their life cycle end.

YOUR BENEFITS

- Preventive maintenance performed by the OEM expert
- Yearly in-depth system calibration
- Diagnosis done with Ravis® / Analyst® maintenance software
- Free software / firmware updates included
- Use of especially configured, high-end, yearly calibrated measurement tools
- Remote monitoring available
- 8D Updates
- Help Desk module included

The Preventive Maintenance participation is minimum one (1) year.
